Test Case #	Part # of the project	Scenario	Test Description	Expected output	Actual Output	Additional Notes:	Tested By:	Chrome	Edge	Firefox
8	Part 2	Apply styles	Did the style sheet link properly	Styles to be applied	as expected		Amaya	pass	pass	pass
9	Part 2	Apply styles	Did the heading sizes change, are they different from before	font size and type different	as expected		Amaya	pass	pass	pass
10	Part 2	Apply styles	Has the first letter of each heading changed in size	first letter of each heading to be slightly larger	as expected	h1 looks weird, hard to tell the difference but its there	Amaya	pass	pass	pass
11	Part 2	Apply styles	changing the color of the first heading and adding a shadow	blue text with yellow shadow	as expected	had to change the index.html file for the h1 to be a class	Amaya	pass	pass	pass
12	Part 2	Apply styles	change the colors of the links (clicked or undlicked should be the same color)	orange links no matter if they have been visted or not	as expected		Amaya	pass	pass	pass
13	Part 2	Apply styles	does the link color change on hover	green when mouse is on it	as expected		Amaya	pass	pass	pass
14	Part 2	Apply styles	change the spacing between the listed items	larger spaces between the items in the unordered list	as expected		Amaya	pass	pass	pass
15	Part 2	Apply styles	center footer on the page as well as reducing the font size	smaller footer centered	text is centered but the font size did not decrease		Amaya	fail	fail	fail
16	Part 2	Apply styles	attempting test case #15	smaller footer	as expected	the font did not decrease before because of a syntax error, now corrected	Amaya	pass	pass	pass
17	Part 2	Apply styles	indent all headers	all headers to be indented	as expected		Amaya	pass	pass	pass
18	Part 2	Apply styles	float img to the left	img to be floated to the left	as expected	there is some overlap with the bullet points when the page is full screen, however that can be adjusted.	Amaya	pass	pass	pass

Test Case #	Part # of the project	Scenario	Test Description	Expected output	Actual Output	Additional Notes:	Tested By:	Chrome	Edge	Firefox
			changing the width of the body to be 800px and the background to be white (however that may not be noticed)			the image is wider than 800px so I am resizing it, it also cause the nav table to squeeze next to the img so I am creating a header and moving the img there	Amaya	Pass	Pass	Pass
19	Part 3	Apply styles	set the border of the body to be blue	the border of the body to be blue	as expected		Amaya	Pass	pass	pass
20	Part 3	Apply styles	center the webpage	everything to be centered	as expected		Amaya	pass	pass	pass
21	Part 3	Apply styles	add a grey shadow to the body	small shadow added to the body	as expected		Amaya	pass	pass	pass
22	Part 3	Apply styles				the border was there but it cut through the image so I fixed it by resizing the image and adding padding to the title so that it made the header larger to fit the image	Amaya	pass	pass	pass
23	Part 3	Apply styles	add boarder to header	blue border below header	border loads in		Amaya	pass	pass	pass
24	Part 3	Apply styles	add a boarder to the top of the footer	blue border above the footer	as expected		Amaya	pass	pass	pass
			add a background that repeats horizontally and vertically to the webpage			filepath to image was incorrect. had to add a step out of the styles file into the img file	Amaya	fail	fail	fail
25	Part 3	Apply background		white background replaced with img	nothing loaded in		Amaya	fail	fail	fail
						the background img was put in body so it replaced the white background replaced but with the img making it unreadable	Amaya	fail	fail	fail
26	Part 3	Apply Background	same as test #25	white background replaced with img	background replaced but made the page unreadable	worked fine, changing the wallpaper to look better repeated	Amaya	pass	pass	pass
27	Part 3	Apply Background	fix it so that the body is readable	white background behind text	as expected	a white bar at the top which i corrected by getting rid of margin in title	Amaya	pass	pass	pass
28	Part 3	Apply styles	add gradient to the header	white to green to black gradient in header	as expected	making the footer block a little bigger so that the gradient is better seen	Amaya	pass	pass	pass
29	Part 3	Apply styles	add opposite gradient to footer	black to gree to white gradient in footer	as expected		Amaya	pass	pass	pass
30	Part 3	Apply styles	make page look well formatted	webpage looking all around better	as expected		Amaya	pass	pass	pass
